Personal Statement

Adaptable graduate with knowledge of application development, object orientation, user experience, and database design. I have excellent problem-solving and communication skills gained from my work and university studies. I would like to use my skills and knowledge gained from my education, inside and outside of academia, to be a valuable member of a games development team.

Experience**CUSTOMER ASSISTANT****Oct 2018 - Current**

TESCO — Haslemere, Surrey

- Worked on the checkouts dealing with the general public in a hands-on role.
- Gained experience and skills whilst solving customer-related issues including dealing with unhappy customers and fixing technical difficulties.
- Completed training on self-scan tills and shop floor processes.
- Usually in the self-scan area due to my proficiency in handling multiple customers.

WORK EXPERIENCE**2 Weeks | July 2019**

TWO POINT STUDIOS — Farnham, Surrey

- QA tested Two Point Hospital on both the Nintendo Switch and the Sony Playstation whilst documenting bugs for the QA team.
- Modelled basic 3D models in Blender.

LIBRARY VOLUNTEER**March 2018 - Sep 2018**

PETERSFIELD LIBRARY — Petersfield, Hampshire

- Sorted books and other items according to established procedure and returned them to shelves.

Skills

- Experienced with using the Unity game engine.
- Skilled in utilizing Github for version control.
- Proficient in a wide array of coding languages (C#, Java, CSS, HTML, SQL, PHP).
- Competent in dealing with customer issues and complaints.

Interests and Achievements

- I gained both the Bronze and Silver Duke of Edinburgh awards during my time at Bohunt Secondary School.
- I am an avid reader interested in all kinds of fiction (Terry Pratchett, Brandon Sanderson and Bernard Cornwell being among my favourite authors).
- I enjoy writing as a hobby and post my creations online alongside self-written CSS to create interesting and enjoyable articles on a community-driven fiction site.
